Role Details		
1.	Role	Executive, Accounts Officer
2.	Grade	Equivalent to 7
3.	Function	Accounts
4.	Location	Mumbai
5.	Nature of Employment	1 year consultant contract
6.	Reporting to	Accounts Lead

Role Overview:
The Executive, Accounts Officer will be responsible for supporting the organization's accounting and financial management functions by ensuring accurate financial record-keeping, timely reporting and compliance with statutory requirements. The role encompasses accounts payable management, general ledger maintenance, bank and financial statement reconciliations, preparation of MIS and statutory reports and support for month-end and year-end closing activities. The incumbent also assists in budget preparation, financial forecasting and variance analysis, providing meaningful insights to support business planning and decision-making.

Key Responsibilities:	
1.	Accounts Payable and Payment Management: Manage end-to-end accounts payable activities, including invoice verification, vendor account maintenance, payment processing, and ensuring timely settlement of dues in compliance with company policies.
2.	General Ledger Accounting and Data Entry: Record, review, and maintain accurate general ledger entries, ensuring proper classification of financial transactions and adherence to accounting standards.
3.	Statutory Reporting and Compliance: Prepare and submit statutory reports while ensuring compliance with applicable Statutes and financial reporting requirements.
4.	Management Information System (MIS) Reporting: Prepare / generate and analyse MIS reports to provide management with timely financial insights, performance metrics and decision-support information.
5.	Bank and Financial Statement Reconciliation: Perform periodic reconciliation of bank accounts and financial records, identify discrepancies and ensure accuracy and completeness of financial data.
6.	Finalization of Accounts: Support the monthly, quarterly and annual financial closing process, including preparation of financial statements, variance analysis and detailed explanatory notes for management review.
7.	Budgeting and Forecasting: Assist in the preparation of budgets and financial forecasts, monitor actual performance against projections, and provide variance analysis along with actionable explanations and recommendations.
